

Make Vector InfoTech Your Choice for Industrial IT & Data Communications.

We Have Grown

We have grown to serve you better.

Since our establishment in 1992, **Vector InfoTech** has consistently been providing reliable and cost effective integrated sets of valued added products, services, and solutions to compliment our partners' and clients' critical businesses.

From a small office startup in Singapore 18 years ago, **Vector InfoTech** has now grown to become a multi-national companies with offices in Malaysia, Thailand, Vietnam, China, Taiwan, Korea, Japan, Indonesia, Middle East.

As your business grow and expands, **Vector InfoTech** will continue to deliver our suite of value added solutions nearer to where you conduct your business, by setting ever higher standards for ourselves as each year approaches

Mr. Lau Kok Hui
CEO, Vector InfoTech Group of Companies

We Are Different

In the new year 2010, we resolve to make a statement that *We Are Different.*

We will be responsive to your needs and we will be deeply service-oriented.

We will provide timely and comprehensive solutions, as well as open communication and commitment to resolving problems.

Regardless of your needs and the project's value, whether it is for supply of Industrial Ethernet, LANs, WiFi, Fiber Optics, GPS Time Sync servers, EEx products, or total systems for VSAT, Microwave, CCTV surveillance, PAGA, Trunk Radio, PABX, Card Access systems, Marine Communications & Navigations systems, etc., our team of professionals will be there to serve your needs, provide you with good quality solutions and services.

We Will Innovate And Evolve To Serve You Better

不进则退 (move forward, or you'll be left behind)

There is no room for complacency.

Vector InfoTech will continue to innovate and evolve our products, services and solutions to remain relevant to your business such as to serve you better.

In 2010, **Vector InfoTech** will add on several new products and services, namely:-

- Solar / Wind alternative power supply solutions
- New Industrial Ethernet Switches
- Complete VSAT and Fixed Satellite systems
- Turnkey Microwave Systems
- Enhanced KVM products and solutions
- Enhanced On-Site Maintenance Services
- More EEx Products & Solutions
- RFID & WiFi Real Time Location Tracking System (RTLS)
- Specialty products for ruggedized surveillance and communications applications

We Wish You The Best Of The Years In 2010

The global financial crisis is officially behind us.

Just like new blooms after the rain, 2010 will be a year full of hope and excitement for all business alike.

Happy New Year!

As we step into this great new year together, Vector InfoTech makes the same yearly resolution to continue to standby you. May 2010 be another prosperous year that marks another new milestone in your business.

Best wishes,

Vector InfoTech
